Where to make the portraits...

- We have choices of location when we make your portrait:
- Your yard or home for that special touch.
- Photo Generations studio is an old 1850's home in downtown Dexter. We use natural light for relaxed casual portraits. Or we can use studio light and special backdrops for a warm elegant look or crisp Black & White look.
- Area parks, or the outdoor areas at the studio are an option.

And more...

- About a week after the session you return to the studio to choose your images
- Finished portraits will be ready approximately two to six weeks after your Big Debut Show when you place your order.
- Collection pricing is available only within 30 days of the session.
- All images created by Photo Generations are copyrighted.
